"Virtual School" means any school or educational program that: (1) Is offered for credit; (2) uses distance-learning technologies which predominately use internet-based methods to deliver instruction; (3) involves instruction that occurs asynchronously with the teacher and pupil in separate locations; (4) requires the pupil to make academic progress toward the next grade level and matriculation from kindergarten through high school graduation; (5) requires the pupil to demonstrate competence in subject matter for each class or subject in which the pupil is enrolled as part of the virtual school; and (6) requires age-appropriate pupils to complete state assessment tests.

Page 1 Footnotes:

(a)	Weighted FTE enrollment is	computed by taking the total clock hours	s of bilingual students who are enrolled and attending in an
	approved bilingual class on §	-20-2020 and dividing by 6 (cannot exce	eed 6 hours for an individual student). Total
	clock hours	0.0 ÷ 6 x 0.395 =	0.0000 (Record on Line 5)

(b) FTE is computed by ta	aking the total headcount of bilingual students who are enro	olled and attending in an
approved bilingual clas	s on 9-20-2020 and multiplying by factor of 0.185. Total	
headcount	0 x 0.185 =	0.0000 (Record on Line 5)

(c) FTE is computed by tak	ing the total clock hours of career and tec	hnical education students who are enrolled and attending
in an approved vocation	al class on 9-20-2020 and dividing by 6 (cannot exceed 6 hours for an individual student). Total
clock hours	50.0 ÷6 =	8.3333 (Record on Line 6)

- (d) In order to access new facilities weighting, a USD must have adopted at least a 25% LOB. Only eligible to schools that passed a bond election prior to July 1, 2015 and bond money was used for construction of new facilities or new schools that were built primarily with federal funds on a military reservation located on USD 207 and USD 475.
- (e) Preschool-Aged At-Risk (4 yr old) students are counted as .5 FTE. USD must be approved by the Kansas State Department of Education.
- (f) Comes from form 118 (line 20).

(NOTE: If September 20 falls on a weekend, the following Monday will be the official count date.)

ADDITIONAL DEFINITION FOR SCHOOL FACILITIES (Must use a minimum LOB listed below to qualify for this provision.)

e) School Facilities Definition - School facilities weighting is available for school districts whose adopted local option budget (LOB) is at least 25% for 2014-15 and have constructed an entirely new facility or an addition to an existing facility. Only eligible to schools that had a bond election prior to July 1, 2015 and bond money was used for construction of new facilities or new schools that were built primarily with federal funds on a military reservation located on USD 207 or USD 475.

The determination of weighting will be based upon the number of full-time equivalent (FTE) students that are enrolled and attending in the new facility September 20 (and February 20 for districts qualifying under K.S.A. 72-5139). In the case of school districts that have constructed an addition to existing facilities, the number of students that are enrolled and attending in the new classroom facility will be counted on a full-time equivalent basis (see example 2.) The additional weighting for this provision of the law is applicable for two years only. For a new facility, the FTE is for the entire building (see example 1). For additions to an existing facility, the following calculation would be utilized.

Example #1: (For new buildings.)

For a totally new constructed building, the FTE equals the total enrollment FTE for that building.

	<u>Headcount</u>	FTE
Kindergarten	77	77.0
Grade 1	87	87.0
Grade 2	81	81.0
Grade 3	75	75.0
Weighting for example:		320.0 X 0.25 = 80.0 X \$4,569 = \$365,520

Example #2: (For new additions)

т	otal number of students in each new classroom Number of class periods (divide by) Full-time equivalent enrollment =		
Example:	New classroom A =	105	students for the day
	New classroom B =	154	students for the day
	New classroom C =	133	students for the day
	New classroom D =	121	students for the day
	TOTAL =	513	
	divide by	7	class periods
	=	73.3	FTE

Weighting for above example: 73.3 X 0.25 = 18.3 X \$4,569 = \$83,613.
